EU Import Restrictions Iron And Steel of Russian Origin Compliance Statement

From 30th September 2023, Sumac Precision Engineering will no longer supply any of our customers with any iron and steel products, as listed in Annex XVII of the Council Regulation (EU) No.833/2014, that either:

- Have originated from and/or have been exported from Russia; or
- Include iron or steel products originating in Russia that have been processed in a third country.

We will take appropriate actions and conduct due diligence throughout our supply chain without any delay to ensure that our suppliers meet the requirements of these new regulations.

On discovery of any information that contradicts the above statements, we will immediately notify any our effected customers in writing upon receipt or becoming aware of such information.

Sumac will continue to monitor the ongoing amendments to the sanctions placed on Russian to ensure that our products / process remain compliant.

Mike Robson
Managing Director
